

PDSVISION invest in Wilde Analysis

Manchester, United Kingdom 14th of December 2021

The PDSVISION Group AB (PDSVISION) announces that it has signed an agreement to acquire Wilde Analysis Ltd (Wilde), with headquarters based in the UK, from the current owners. This follows closely after the announcement that PDSVISION is joining forces with Root Solutions Ltd in the UK.

PDSVISION Group (PDSVISION), was founded in 2008 and is a global provider of solutions and services focused on helping companies successfully enable their Digital Transformation Journey from product development to aftermarket services.

PDSVISION is considered the leading and trusted advisor within the product development sectors. This is achieved by combining best-in-class software solutions, technical support and professional training, with divisions located across the globe. PDSVISION's solutions are centered around the portfolio of products provided by PTC Inc. and Ansys Inc. These are focused towards the areas of 3D Design (CAD), Product Lifecycle Management (PLM), Service Lifecycle Management (SLM), Internet of things (IoT), Augmented Reality (AR) and Simulation (CAE). PDSVISION also develops its own range of software applications to add extra capabilities to further enhance utilisation of the main solutions offered.

The group is projecting sales in 2021 of ca €55 million, is headquartered in Sweden and has operations in Finland, Denmark, Norway, Germany, United Kingdom, South Africa and the USA.

"This acquisition adds a significant extended offering of advanced engineering simulation and technical risk management to our solution portfolio. Advanced simulation and safety analysis are important components for PDSVISION to continue the growth of the services we provide to our customers and partners as part of the continued expansion of our global footprint. Wilde has a proven track record and very strong reputation in these domains.

With Wilde, combined with our existing operations and our new colleagues at Root, the UK will form an important and strategic platform for continued growth. Together, we share the view of potential synergies in combining our services and winning cultures to guide our customers through their digital transformation journeys. I am excited to continue the journey together with all our new UK-based colleagues."

Said Johan Klingvall, CEO of the PDSVISION Group.

"The teams of Wilde and PDSVISION complement each other perfectly, ensuring a foundation for further growth and benefiting our partners, our employees, and especially our customers. "

Explained David Deakin, Managing Director, Wilde Analysis Ltd.

"We look forward to collaborating with the PDSVISION team. Our corporate cultures are a perfect fit. With this strong partnership, we can build upon our past success and expand our software and service delivery within predictive engineering into the future. "

Continues Brian Miller, Sales & Marketing Director, Wilde Analysis Ltd.

About Wilde

Wilde is an independent value-added engineering analysis reseller, consultancy and training provider, specialising in advanced CAE (FEA, CFD and Electromagnetics), manufacturing simulation, reliability analysis and technical safety.

Wilde was formed in April 1980 by David Wilde and colleagues at University of Swansea. Led by Chartered Engineers, its growth and success over four decades has been built on a highly skilled and experienced technical & commercial team, together with the most capable portfolio of engineering analysis tools available.

Today, Wilde is a channel partner for Ansys, Moldex3D, DEFORM, Bentley Systems and ReliaSoft. With headquarters near Manchester and around 40 employees, it has supported over 2000 clients throughout the UK, Ireland and in Europe to improve their products and processes and manage risk through the application of predictive engineering technologies.
